## **Definitions so you can have a clear understanding of this Constitution**

**Human Rights** = all human rights written in the Common Law of Justice.

**Common Law Rights** = the Power and agency to act without violating the Common Law Rights of another and the Power to defend those actions in Court.

**Power** = having enough political or public support, having enough public credit and means to efficiently defend yourself and your actions, whether that defense is to defend good or evil.

**Government Privilege or Communism** = a violation of all Human Rights and all human rights. Whenever anyone tries to take away or replace your right with privilege, you are being robbed, a right is more valuable than a privilege, a right is the Power to choose your own destiny and not be a puppet of other people. It is not possible to replace a right with a privilege; a true privilege is being given more than your rights, not less than your rights. Constitutional Government does not belong in the privilege business; if Government gives a privilege it does so by violating the Rights of others. Privilege belongs only in the individual and personal jurisdiction when a person knowingly and voluntarily gives of their rights to another person temporarily! The only people who receive real privilege from Government are the evil traitors at the top of the Evil hierarchy of fraud; all other so called privileges are nothing more than pure deception and robbery!

**rights** = the Power and freedom to do more and greater good because of your commitment to the natural laws and principles of Justice, rights not necessarily appropriately directly protected and defended by the Common Law of Justice and it's Public Representatives, but protected and defended by your own honest and responsible decisions, the natural laws of Justice, and the exercise of honest religion, honest relationships, and honest faith; rights that can be directly or indirectly upheld by the Common Law of Justice and it's representatives.

rights do not come from the spiritual whims of wealthy and Powerful people!

**crime** = a violation upon Human Rights and opposing the Common Law of Justice.

**naturally sustainable non-adult children** = children that do not have to be connected to a machine or electronic equipment of some kind to live, including children that are healing and recovering from short term damage; children that will be able to support and sustain their own life when they become adults by providing some kind of voluntary public service.
