

# **TWAS THE WEEK OR SO BEFORE THE GLOBAL EVENT**

## **12/19/2018**

**I have been monitoring various intel sites attempting to gain a reasonably clear picture of what is going on behind the scenes and , at this time, want to bring folks up to date on the picture that's coming slowly into focus. Please use your discernment and do your own research.**

1. Most people are aware that all fiat currencies throughout history have failed, no known exceptions, so it is not a question of if, simply a question of when our fiat currency known as Federal Reserve Notes(FRN) fail. When they were introduced , a one dollar FRN was worth a silver dollar, or 1 ounce of .999 pure silver. Today, the retail price of a new silver dollar is approximately \$18, which implies the FRN has already lost about 90% of its value.
2. The Constitution of the United States does not delegate any authority for a central bank , and especially a privately owned for profit central bank that controls the printing of our currency. I am unaware of any business that can create \$100 of revenue for the printing costs of about \$.07 !! These great margins were supposed to go to We the People, not a group of very wealthy private bankers.
3. So we are snow faced with the prospect of replacing the FRNs, which are really debt certificates or promissory notes, with real money. Additionally, there has been a plan, which was originally developed in the late 1970s, to take down the unlawful and illegal cabal which has been running the the corporations which has been doing business as the defacto UNITED STATES and the Territorial United States (INC). Neither of these corporate entities have been operating as our lawful government.
4. Intel reports, when stitched together , now indicate we are facing a situation of mass arrests, coupled with martial law, the closing off of our borders so the criminals will not escape, and about a 9 day closing of the banks in order to reset the economy on a new currency which will be lawful money because it will be backed by silver and/or gold.
5. In addition, reports indicate that there will be televised military tribunals and also a 7 x 24 channel dedicated to full Disclosure, which will include the evil crimes committed against We the People, the true history of our planet and our species , and information about important technologies that have been suppressed. These technologies include free energy, medbeds, and electrogravitics. All three of these technologies will likely have a very large and important improvement in the quality of all of mankind's lives.
6. So, in summary for now, we are headed for a Victory of the Light over Darkness, of good over evil, and we are on the threshold of possibly entering a new 1000 year period of peace and prosperity long term. Short term, please consider fastening your seatbelts because, if these intel sources are accurate, we will likely faces some very turbulent times over the next 6-12 months IMHO.

7. Peace and love to all !!
8. PS; Below is an document that details the sources I have been using over the last 2 years or so with some editorial comments:

## OVAL OFFICE PRAYER.

11/27/2018

Prayer said every single day in the OO( Oval Office ).

“Rest in peace Mr. President (JFK), through your wisdom and strength, since your tragic death, Patriots have planned, installed, and by the grace of God, activated, the beam of LIGHT. We will forever remember your sacrifice. May you look down from above and continue to guide us as we ring the bell of FREEDOM and destroy those who wish to sacrifice our children, our way of life, and our world. We, the PEOPLE.”

JFK – Secret Societies.

Where we go one, we go all.

Editorial Comments - We have been seriously deceived in big ways ! Do your own research !!

A little over 4.5 years ago, I began an expedition to determine the root causes and appropriate corrective actions for the lawlessness with harmful intent I discovered in every branch of our Government. I quickly learned that every branch of our

government , including local, county, state, and national government entities have been unlawfully, unconstitutionally and illegally converted into private, for profit government services corporations.

Our Founders debated the idea of having a corporate form of government and rejected it in favor of a Republican Form of government as stated in Article 4 Section 4 of our Constitution, the supreme law of our land.

We live in a very uncertain times IMHO. The primary uncertainty I am referring to is what is true and what isn't. We have been seriously deceived for about 150 years or more by most of the people and institutions, including most media, that we have justifiably learned to put our trust in.

Unless we actually witness something first hand, how do we know if it is reality or not ? And even today with some of the optical control and mind control techniques, we simply no longer can be sure. This leads me to the conclusion that I am no longer capable of judging much of anything 100% true or 100% false, leaving me to take decisions based on probabilities of something being true or false.

So about 4 years ago based on my own knowledge and experience, I gave up completely on Main Stream news sources, including even the Wall Street Journal, which for many years of my business career seemed to be focused on fact based reporting, but after it got sold to Fox parent, quickly lost its ability to discern truth from fiction and opinion.

My "trusted sources" shifted over to primarily the alternative media and independent reporters. Below I want to share with you sources of information that definitely have an independent viewpoint on what is true which you will not find anywhere in the Main Stream Media. Please do your own research.

1. A group of Truth Seekers who concluded we had been seriously deceived about our origins went forward to create a web site that presents their combined viewpoint of our true reality. The viewpoint expressed here is very different than anything we have been told or taught.

2. I developed a deep interest in our universe and our place in it because my wife Linda is an amateur astronomer. Once I comprehended that our galaxy , called the Milky Way, has billions and billions of stars in it like our sun, and that there are over 1 TRILLION other observable galaxies in our universe, the only conclusion that made any sense to me was the probability that we are the only intelligent life in our universe became close to zero IMHO. For an off world viewpoint on the battle currently being waged between good and evil here on earth and in space, Cobra is the trusted spokesperson for The Resistance, which represents a galactic alliance composed of both on earth and off earth entities fighting hard to take down the evil cabal. You can follow Cobra on Facebook at Cobra Etheric Liberation and at

3. According to many different independent sources, we are approaching the Event. There are at least 3 major facets to the Event: Mass arrests of evil doers across the world, a banking holiday while the banks are retooled and retrained to work with a substance based new currency, and Disclosure with a capital D. Disclosure is all about helping us learn the truth about the history of our species, the history of our planet, the truth about our place in the universe(s), and the suppressed energy, medical, transportation, and communications technological based solutions.

**There is a story being told when we review the content of these sites together: Although we are likely to experience some difficulties like the fires in California, more man made "natural disasters", and more false flags terrorist events, The White Hats, Lightworkers, and Lightwarriors are winning the current battle between good and evil and we are likely headed towards an extended period of peace and prosperity !!**

**Please remember it remains our responsibility to help good win over evil everyday of our existence !!**
